

DIVA Foundation

*diagnostic interview
for ADHD
in adults*

NEW: DIVA 2.0 App!

The DIVA 2.0 (Diagnostic Interview for ADHD in adults) is now available as DIVA 2.0 App in both the App store as at Google Play, for Iphone, Android and Ipad!

The DIVA 2.0 App contains the Diagnostic Interview for ADHD in adults; the DIVA 2.0 App adds the total number of DSM-IV criteria for ADHD in both child- and adulthood, for careful diagnostic assessment of ADHD. Data will not be stored, but sent via email, both as text and as SPSS file.

DIVA 2.0 is a semi-structured interview for assessment of ADHD by a professional; the answers need interpretation by the professional investigator. Patients, family member and others may be interested in DIVA 2.0, but need to know that selfreport using DIVA 2.0 is not the same as a professional diagnosis. DIVA 2.0 is available in 8 languages, more translations are underway.
